Information for young people and their parents

What is Quest4success?

Quest4success is a training programme for young people between the ages of 16 - 18. The programme can last up to 22 weeks. Young people are given the opportunity to gain qualifications that will help them progress to Level 2 training, an apprenticeship or a job.

Hayleigh, a Foundation Learning learner, now on a hairdressing apprenticeship

Is Quest4success for me?

Quest4success may be the right choice for you if:

- you left school with no, or very few, qualifications and would like to achieve more
- you would like to get an apprenticeship, a job or go to college

Do I get a qualification?

You will be given the opportunity to work towards up to five qualifications. These will include:

- an employability qualification
- Functional skills in maths, English and IT
- a vocational qualification

All young people will have an individual learning plan (ILP) setting out what qualifications they will achieve and at what level.

Which vocational areas can I choose from?

Quest offers vocational qualifications in administration, IT, motor vehicle, hairdressing, retail, sport and leisure and customer service.

Alex a Foundation Learning learner, now on a motor vehicle apprenticeship

Do I get work experience

Once you have achieved all the qualifications on your ILP we will look for work experience for you with a local employer.

What happens when I finish the programme?

If you successfully complete your Quest4success training programme you may be able to join an apprenticeship programme, get a job or go to college full-time. Quest staff and your Connexions personal adviser will be happy to give guidance and advice on the most suitable options.

Quest offers apprenticeship programmes in retail, motor vehicle, administration, IT, customer service and hairdressing. If you do well in your work placement and your employer is happy with your work, you may be able to transfer to an apprenticeship with Quest.
